

AQUATICA Pools & Spas

THE ULTIMATE
IN POOL AND
SPA MOSAICS

TREND®
Born with style

Fast, easy and safe installation

TREND's installation system represents **the best solution for the installation of mosaic in any environment**, including where there is direct contact with water, such as in steam baths and swimming pools. TREND's pre-mounted support guarantees maximum flexibility of the sheets while ensuring stable and secure support during installation without detachment of the tiles.

Quality, long life, resistance, easy maintenance

Trend Group is one of few organisations that wholly owns, manufactures and distributes its goods directly to more then 50 countries. This ownership **guarantees the highest level of product and service quality** throughout production facilities, assembly units and offices located across four continents.

Green is much more than a color

TREND Group's mosaics are manufactured using u**p to 78% post-consumer recycled glass** and 60% less raw material, combining technological advances with environmental awareness. Colors inspired by nature, expressions of contemporary style, examples of using our resources more efficiently.

Each piece is unique and exclusive

TREND embodies beauty and simplicity, allowing you to express your creativity while easily creating your own custom project.

Colours shown are indicative and they can have different shades. The color of the water presented is to be considered as purely indicative. The actual coloring of the water can vary depending on weather conditions, pool depth and many other factors.

A collection of high-quality colors to bring your dreams to life.

TREND glass effortlessly reflects the brightness of the sky and water. A classic and elegant covering, it integrates seamlessly in and around swimming pools. TREND mosaics guarantee quality, long life, resistance and easy maintenance, making them the ideal choice to add long-lasting value.
